Ms. Bosworth,

We are performing a Phase I Environmental Site Assessment on a property in Portland Maine which adjoins the Fore River Transportation Park, Site ID: 0101065, EPA ID: MED981889827, to the east and northeast. On the information we have obtained so far, you are listed as the CERCLIS Site Contact. Any documentation or information you can provide regarding the direction of contamination (plume map), as well as what steps are currently being taken to remediate would be greatly appreciated.

Feel free to give me a call if you have any questions or concerns.

Thanks so much
